Inspection process

Uniqueness Authentication and Network Query

Access to running water and information reporting

Acquisition of Inspection Flow

Report on Inspection Information

Preparation for testing

Detection procedure

- Selection of detection methods
- Procedure operation according to system guidance
- Driving vehicles in place
- Deceleration and stop
- Release of restrictions and departure
- Number plate recognition
- Protective measures
- detection completion

Data aggregation

- Data aggregation
- Platform audit
- Data reporting
- Conclusion issue

The image shows a screenshot of a data management software interface. It features a table with multiple columns and rows of data. The columns include fields like 'ID', 'Name', 'Status', and 'Date'. There are also search and filter buttons at the top right of the interface. The table is tilted slightly to the right.

Thank you for listeni
